## GOVERNMENT CASE STUDY

Client:	Landstuhl Regional Medical Center	Date:	2022
Location:	Germany	Value:	\$90,000
Scope:	Interior and Exterior Wayfinding Solution		
Products:	Slide Modular Sign System. Design and Planning Services supported by Installation and Maintenance.		

**Challenge:** This case study highlights 2/90's dedication to excellence and our ability to effectively manage large-scale international projects, showcasing our capacity to overcome logistical obstacles. In July 2022, the US Army Engineering and Support Center in Huntsville, Alabama, sought effective interior signage and wayfinding solutions for the Landstuhl Regional Medical Center in Germany. 2/90 responded promptly, utilizing their innovative Slide Modular Sign System product to meet the project's unique challenges. After team introductions and site visits, a comprehensive work plan was developed to outline installation requirements and timelines.

**Solution:** By January 2023, 2/90 received approval to proceed, leading to the successful delivery and installation of the signage across international boundaries. Despite the difficulties of managing the project remotely across time zones, the project was executed with precision, demonstrating meticulous attention to detail during fabrication, packing, and shipping. Collaboration between the Field Operations Manager and the Services team was crucial in overcoming field challenges and ensuring a smooth workflow for our Installation team.

*HELPING PEOPLE FIND THEIR WAY. With more than four decades of experience planning, installing, and maintaining signage systems, 2/90 has a proven history of successfully managing turnkey signage projects. We have manufactured and installed comprehensive architectural communication solutions for many prestigious government facilities.*

*Our 2/90 interior architectural facility signage systems and advanced fabrication capabilities allow us to create high-quality signage to complement any environment. An extensive offering of colors, finishes, and countless options with insert configurations, graphic elements, and product enhancements, provide a sustainable, modular interior sign solution for our valued clients.*
